

Progress or anti-progress?

It must be nearing election time as the knives are out for our elected officials.

Why does a small group of independents going by the name of the Progress Association continually criticise progress?

The proposed marina is a great example.

Why is it acceptable to litter Rockdale with bill posters (illegally), but not acceptable for Rockdale Council to plant beautiful flower beds?

Why did the Australian Productivity Commission and independent expert panel find that the councils are using heritage to prevent progress?

Because it's easier to swing a wrecking ball and criticise than to be an architect and build for improvement.

The so-called Progress Association should get themselves elected before trying to dictate to experienced elected officials and Rockdale's ratepayers.

Baseball clubs still ticking

Referring to the letter "Baseball mystery" (Your View, May 8). Having written the *St George Baseball History* dating back to 1908, I can con-
