

through the early hours of the morning?

The answer is no one. So, please, everyone write to Rockdale Council and Frank Sartor and try to get this land back to a park, not a hayfield or another awful block of high rises.

Progress, education, evolution

Why can't Mary Armstrong and Bernie Sarah (Your View, March 7 and 15) understand that when you pay peanuts you usually get monkeys?

If their idea of a junket is spending a freezing, cold week alone in Auckland away from family and friends, they need to get a life.

Councillor Gary Green's statesman-like contributions to local government should be applauded and all our councillors encouraged to make themselves proficient at their jobs.

If certain people had their way, Rockdale would

be back in the stone age. Let's not forget that it's progress, education and evolution that separates us from the apes.

Sartor is listening to us

I would like to thank our local MP, Frank Sartor, for setting up a meeting last weekend about the annual carnival at Cook Park, Kyeemagh.

Many issues were discussed, such as unlawful parking, vandalism and anti-social behaviour.

Mayor Bill Saravinovski and Cr Green, who were also in attendance, agreed to move a resolution to either get rid of or relocate the carnival. It is reassuring to know that our local MP is listening to the residents of Kyeemagh and Brighton-Le-Sands.
